Welcome to My Portfolio

Hi, I'm Mustafa Babiker, a Computer Science graduate passionate about web development, programming, and technology. I aim to contribute to innovative projects that solve real-world problems and support community growth.

About Me

My professional goal is to work in the field of computer science and information technology, developing my skills to provide innovative solutions. I seek to obtain a job opportunity in a supportive organization that offers personal and professional growth. I aim to be part of a team that focuses on solving real-world problems through creative projects that contribute to community development and technological advancement.

Education: Bachelor's degree in Computer Science and Information Technology from Sheikh Mustafa Al-Mustafa Model University, graduated in 2020.

Volunteering Experiences: Organized food distribution for the needy in East Gereif Charity Organization. Temporary teaching in a school, assisting in developing appropriate curricula for the local environment.

Hobbies: Learning programming, participating in community activities, volunteering, and staying updated with technological developments.
